**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1, 2-8, 10-15, and 18-28 are allowed.
2. The following is an examiner's statement of reasons for allowance: Revilla et al. (U.S. Patent Application Publication No. 2002/0144041), the closest reference, and the other cited prior art, do not teach or fairly suggest: the step of executing an exception handling routine comprising the step of transforming data into at least one instruction for execution by the central processing unit in combination with the other steps in the routine (in claim 1; and claims 8, 15, and 20 each recite the corresponding limitations). Further the combination of the above limitations with all of the other limitations in the respective independent claims is not obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
